

WSC 2012-2013, Conference 12

Case 1. Tissue from a spotted eagle ray.

MICROSCOPIC DESCRIPTION:

MORPHOLOGIC DIAGNOSIS:

CAUSE:

WSC 2012-2013, Conference 12

Case 2. Tissue from a green grouper.

(This is a crappy descriptive slide – just look at the description and move on...)

MICROSCOPIC DESCRIPTION:

MORPHOLOGIC DIAGNOSIS:

CAUSE:

WSC 2012-2013, Conference 12

Case 3. Tissue from an abalone.

(If you have never looked at an abalone, put down your pen, read the description, and move on.)

MICROSCOPIC DESCRIPTION:

MORPHOLOGIC DIAGNOSIS

CAUSE:

WSC 2012-2013, Conference 12

Case 4. Tissue from an African clawed frog.

MICROSCOPIC DESCRIPTION:

MORPHOLOGIC DIAGNOSIS:

CAUSE:
